

The FCC should not implement any proposal that would lessen Indiana's telephone privacy law protections. We used to get 8 to 13 telemarketing calls during the day and more after we came home from work. We also received calls on Saturday and Sunday starting at 9:00 a.m. and ending at 9:00 p.m. Since the Indiana Attorney General has implemented the Indiana no-call list, we only get 1 call most days. Please do not alter the Indiana no-call list. This one thing has greatly improved our life. We also have a family member who sleeps days and works nights and we don't have to worry about calls all day waking them up. Thank you.
